RULES AND REGULATIONS

1. These Rules and Regulations are supplementary to the Administrative Regulations of the Public Service Commission. Said regulations designated as 807 KAR shall govern in any instance of conflict between these Rules and Regulations and 807 KAR.
2. Bills will be rendered monthly and ten days will be allowed for payment. After due date (due date shown by your billing card), 10% penalty will be added to the bill.
3. Discontinuance of Service for Nonpayment of Bills: A customer's service may be discontinued on or after the thirtieth day after the date of mailing of the original bill in accordance with Section 14(1)(f)2 of 807 KAR 5:006 of the Public Service Commission which stipulates that the customer must receive at least 5 days written notice before the service is discontinued and that a reasonable effort to induce the customer to pay preceded the written notice.
4. All bills are payable at the office of the South Logan Water Association, City Hall, Adairville, Kentucky. Also, any business concerning water service may be transacted at the Water Association office.
5. No more than one house or business may be connected to one water meter. Violation of this rule will result in discontinuance of water service.
6. The installation and maintenance of all water service lines beyond the meter is the responsibility of the customer and must meet the requirements of the Kentucky Department of Health. Customer's water meters have been installed correctly according to specifications. Any damage resulting from making customer's connections to said meter will be the customer's responsibility. The cost of repairs for such damages will be added to customer's bill. All service connections shall be a minimum of 18 inches below ground level to minimize the possibility of freezing. Earth fill should be replaced around the meter box immediately after the service connection is made.

RULES AND REGULATIONS

7. No adjustments will be made to customer's water bills for water leakage occurring on customer's side of the meter until customer has proof of repair. It is recommended that copper or PVC pipe with a pressure rating of not less than 160 psi and sized not less than 3/4" ID be used for all service lines. All pipe should be NSP approved.

That the Utility may require a reconnect fee of \$40.00 for any service which has been discontinued for nonpayment of bills or for violation of the Utility's Rules and Regulations.

CLASSIFICATION OF SERVICE

DEPOSIT POLICY

Deposits. (1) Determination of deposits. South Logan Water requires from any customer a minimum cash deposit to secure payment of bills.

The method of determining the amount of a cash deposit may differ between classes of customers, but shall be uniform for all customers within the same class. The amount of a cash deposit shall be determined by one of the following methods:

(a) Calculated deposits. The deposit amount shall be based on the average bills of similar customers and premises in the system. Deposit amounts shall not exceed two-twelfths (2/12) of the customer's actual or estimated annual bill where bills are rendered monthly.

(b) Refund of deposits. Refunds shall be made either by check or by credit to the customer's bill, except that a utility shall not be required to refund any deposit if the customer's bill is delinquent at the time of recalculation.

(c) Additional deposit requirement. If a deposit has been returned and the customer fails to maintain a satisfactory payment record as defined in the utility's currently effective tariff, the utility may require that a deposit be made. If substantial change in usage has occurred, the utility may require that an additional deposit be made. No additional or subsequent deposit shall be required of residential customers whose payment record is satisfactory, unless the customer's classification of service changes, except as provided in subsection (1) (c) of this section.

(d) Receipt of Deposit. The utility shall issue to every customer from whom a deposit is collected a receipt of deposit. The receipt shall show the name of the customer, location of the service or customer account number, date, and amount of deposit. If the notice of recalculation de-

scribed in subsection (1) (c) of this section is not included in the utility's application for service or mailed with customer bills, the receipt of deposit shall contain the notification. If deposit amounts change, the utility shall issue a new receipt of deposit to the customer.

(e) Deposits as a condition of service.

customer service may be refused or discontinued pursuant to Section 14 of this regulation if payment of requested deposits is not made.

(f) Interest on deposits. Interest shall accrue on all deposits at the rate prescribed by law, beginning on the date of deposit. Interest accrued shall be refunded to the customer or credited to the customer's bill on an annual basis, except that a utility shall not be required to refund or credit interest on deposits if the customer's bill is delinquent on the anniversary of the deposit date. All interest that has accrued as of the effective date of this regulation shall be refunded or credited to the customer's bill on the first anniversary of the deposit date after the effective date of this regulation. If interest is paid or credited to the customer's bill prior to twelve (12) months from the date of deposit, the payment or credit shall be on a prorated basis. Upon termination of service, the deposit, any principal amounts, and interest earned and owing shall be credited to the final bill with any remainder refunded to the customer.

(g) The method by which deposit amounts will be determined for each customer class, as set forth in Section (1a)

(h) The period of time the utility will retain the deposit, or the conditions under which the utility will refund the deposit, or both, depending on customer payment record.

WATER RESPONSE PLAN

SOUTH LOGAN WATER ASSOCIATION, INC.

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the SOUTH LOGAN WATER ASSOCIATION, INC. in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the SOUTH LOGAN WATER ASSOCIATION, INC. water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the SOUTH LOGAN WATER ASSOCIATION, INC.
- (c) "Treated Water" shall mean water that has been introduced by the SOUTH LOGAN WATER ASSOCIATION, INC. into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

- sales of domestic use where not reasonably available elsewhere.

Public Use:

- firefighting,

- health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats
- restaurants, clubs and eating places.
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens,
- minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,
- watering by commercial nurseries at a minimum level necessary to maintain stock,
- watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,

Recreational:

- operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- refilling for startup at the beginning of the cooling season,
- makeup of water during the cooling season,
- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- failure to repair a controllable leak,
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

SHEET NO. 19A

CANCELLING PSC NO. 2

SHEET NO. 5 of 9

CLASSIFICATION OF SERVICE

WATER RESPONSE PLAN

(f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.

(g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

(h) Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the SOUTH LOGAN WATER ASSOCIATION, INC. When implemented, this Plan becomes SOUTH LOGAN'S Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water Supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the SOUTH LOGAN WATER ASSOCIATION, INC. MANAGEMENT.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the MANAGEMENT of SOUTH LOGAN WATER ASSOCIATION, INC.

CLASSIFICATION OF SERVICE

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A Water Advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to ²⁵ % below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the SOUTH LOGAN WATER ASSOCIATION, INC draws water. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
- (a) Declare a Water Shortage Advisory.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Request voluntary conservation of all non-essential (Class 3) water use.
 - (e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 40% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
- (a) Declare Water Shortage Alert.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all non-essential (Class 3) water uses.

the level necessary to meet essential needs, and in the opinion of SOUTH LOGAN WATER ASSOC. mandatory rationing is required to insure adequate water is available to maintain public health and safety.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.
- (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
- (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (h) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of 2.50 per 1,000 gallons.

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard

WATER RESPONSE PLAN

before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.

- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

(a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the SOUTH LOGAN WATER ASSOCIATION, INC. for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

- (b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.
